SALARYSCALE:	3
REPORTINGTO:	TECHNICAL SERVICES MANAGER

Nyahururu Water and Sanitation Company Limited, a public water utility company fully owned by the County Government of Laikipia and with a mandate to provide water and sanitation services in Laikipia County is seeking to recruit a self-driven individual for the position of **Operations Engineer**.

The successful candidate will be responsible in assisting the Technical Services Manager in project management, operations and maintenance of water and sewerage networks as well as implementation of the department's strategies.

JOB DESCRIPTION

- i. Ensure professional and economical operations and maintenance of water production, storage, transmission and distribution systems in the company's area of service to meet key performance indicators.
- ii. Participate in the development of Non-Revenue Water reduction strategies and Co-ordinate the NRW team and other sections to implement these strategies.
- iii. Assist the Technical Services Manager in the preparation of departmental annual budget and work plans.
- iv. Assist the Technical Services Manager in identifying potential areas for water and sewer services extensions.
- v. Assist the Technical Services Manager in the design of projects and preparation of technical proposals for service extensions or rehabilitation of water and sewerage infrastructure.
- vi. Assisting with the reviews of water system capacity and service evaluations associated with water service extension projects and other potential service growth opportunities.
- vii. Supervise, train, manage performance and motivate staff in the department to ensure improvement of professional skills.
- viii. Ensure timely and economic repairs of leakages or breakdown in water supply and distribution systems, unblocking of sewer system and ensure manholes and trenches are covered.
- ix. Perform any other related duties as delegated by Technical Services Manager.

JOB SPECIFICATION

- i. Degree in Civil Engineering, Water Engineering or any related engineering degree from a recognized institution of higher learning.
- ii. Be registered as Graduate Engineer by Engineers Board of Kenya and be of good standing
- iii. Member of Institute of Engineer of Kenya IEK and be of good standing
- iv. A minimum of 5 years working experience in the water sector, 3 of which MUST be at supervisory or managerial level.
- v. Demonstrate fluency in use of design and drafting software -AutoCAD (Civil 3D).
- vi. Experience in use of engineering hydraulic modeling software –e.g. EPANET.
- vii. Experience in use of ICT systems.
- viii. Ability to pay attention to details.
- ix. Excellent communication skills.
- x. Excellent planning and organizational skills.
- xi. Strong leadership and problem-solving skills.
- xii. Self-driven individual who is diligent, honest, disciplined and responsible.
- xiii. Demonstrate good leadership and strong management skills with ability to work under minimal supervision and under pressure.
- xiv. Qualifications and (or) experience in GIS is an added advantage.
- xv. Must satisfy and the requirements of chapter six of the constitution of Kenya 2010 on Leadership and integrity through provision of: -
 - Current certificate of good conduct from Directorate of Criminal Investigation Department
 - Current Tax compliance certificate from Kenya Revenue Authority
 - A clean and current report or clearance certificate from an approved credit reference Bureau (CRB)
 - Clearance from the Ethics and Anti-Corruption Commission (EACC)
 - Clearance Certificate from Higher Education Loans Board (HELB)

TERMS OF EMPLOYMENT

The appointment will be for a three year fixed contract.
